

## CIRCULAR SAW BLADES FOR FIBRE CEMENT

### For hand-held and plunge circular saws

Hand-held Circular Saws

Plunge Saws

Corded

Fibre Cement

Plasterboard

#### Machines:

Hand-held and plunge circular saws.

#### Materials:

Fibre cement and plasterboard.

#### Technical information:

Polycrystalline Diamond teeth for long lifetime in abrasive materials.

TCG tooth with positive cutting angle.

#### Machines:

Cordless hand-held and plunge circular saws.

#### Materials:

Fibre cement and plasterboard.

#### Technical information:

Specifically designed to maximise battery runtime and optimise ease of cut on cordless saws.

Thin kerf and TCG tooth with positive cutting angle. Polycrystalline Diamond teeth for long lifetime in abrasive materials.

### For cordless hand-held and plunge circular saws

Hand-held Circular Saws
